I personally love the traffic reports for Orlando & Tampa which are 2 cities im in everyday they really help me out alot, and how exactly is it ok for the Eckerds drug stores here in FL to sell the little instant traffic report thing they sell and no one says anything about that but when something like xm comes along you guys throw a fit I mean its not like the customers are getting this service for free and ya know not eveyone in the states have a xm radio either I mean come what next guys you gonna give evryone schedualed times to use the bathroom too?
